Gold Pebble Full Floor with Vinyl Over Steps

PerformancePoolProducts.com
After a long, brutal winter, you’re ready for a change of pace. But now that the weather has turned to sunny and HOT, you’re longing for a swimming pool in your backyard. Fortunately, a Performance Pool Products professional can guide you every step of the way.

When building, or updating an inground pool, one of the most important decisions you will have to make is choosing the best vinyl liner for your pool. Performance Vinyl Liners offer a large selection of designer patterns, which are made of the highest quality vinyl materials. In addition, your Performance vinyl liner is backed by a 20-Year Warranty, one of the best in the business.

All Performance Vinyl Liners feature our exclusive Ultra-Seam® technology. Combined with the added benefit of bacteria and chemical resistant vinyl material, you’ll experience carefree enjoyment for many years to come. For a long lasting vinyl liner and ease in cleaning and maintenance, choose Performance.

For more information, contact your Performance Pool Products dealer...and get your pool fun on!

Ultra-Seam® – Standard on every Performance liner!

The strongest seams you’ll never see! Over 500,000 installs!

Standard pool liners present visible lines on the pool floor at the seams which ultimately detract from the beauty of the pool. Our innovative Ultra-Seam® technology elevates our liners to an entirely new category.

This exclusive process makes floor seams stronger and virtually invisible, so there’s nothing that gets in the way of the picture perfect beauty of your pool!

Now standard on every Performance Liner.

For more information, ask your dealer about Ultra-Seam!
Latham offers an extensive array of designer patterns. The newest addition is our Pearlscape Collection. Iridescent inks are introduced into our traditional vinyl liners and these iridescent inks create a luminous shimmer and sparkle in your pool.

The unique Pearlscape Collection liners are made from the best vinyl material available. They are treated to resist algae growth and are UV resistant for a longer life.

IMPORTANT: A number of very important items that are essential for the safe use of your pool may not be visible in many of the photographs, either because of perspective or camera angle, or because they were removed for photographic purposes. These items include:

1. Safety ropes, which should remain in place at all times
2. “No Diving” signs are provided by the manufacturer and should be installed in accordance with instructions included on the coping or liner, where they are clearly visible
3. An area sign is provided by the manufacturer and must be permanently and conspicuously affixed in the pool area where all users can see it
4. Necessary means of exit and entry into the pool
5. Fencing with a self-latching gate, and other barriers that can assist in preventing unsupervised access to the pool by children
6. Approved drain covers and other devices to protect against suction entrapment.
7. Minimum required inlets and returns to ensure proper water circulation.
8. Appropriate in pool lighting if the pool will be used after dark.

All of these devices should be installed in accordance with the manufacturer’s instructions, ANSI/NSPI or ANSI/APSP standards, as well as state and local statutes and codes.

Diving boards and slides require minimum depths and distances and must only be installed and used in strict compliance with the equipment manufacturer’s specifications and ANSI/NSPI or ANSI/APSP standards.

If the pool is labeled by us as NON-DIVING, then diving equipment may not be installed and any such equipment must be removed before the pool is used.

Smart pool owners always think safety first. They take specific steps to ensure that their family, friends and guests are knowledgeable about the safe and sensible use of their pool. They also:

• Ensure that their pool is never used unless there is adequate supervision
• Ensure that their pool is kept in good repair and is not used when there is a missing or broken drain cover or other component
• Ensure that ALL CHILDREN using their pool are supervised constantly
• That anyone under the influence of alcohol, drugs or stimulants that would impair their abilities or judgement does not use the pool
• Ensure that their pool is protected by appropriate barriers to unsupervised entry including fencing with self-latching gates, covers, alarms, etc.

To assist you, a number of very important items of safety literature are included with each pool. We must insist that you read each item carefully and follow the instructions. These are:

• Pool Owners Safety Handbook
• “Notice” Card
• APSP “Sensible Way” Book
• Vinyl Swimming Pool Liner–Warranty
• “Children Aren’t Waterproof” Book
• “No Diving” Labels
• Plaque

Make sure your builder supplies you with all of the safety information that accompanies your pool and installs the enclosed warning stickers and area sign where they can be clearly visible to all who use the pool.
